Education

Beijing University of Posts and Telecommunications

B.E. in Software Engineering

Beijing, China

Sep. 2019 – Present

- Grade: 87/100
- Computer Science Courses: Computer Organization and Architecture, Operating System Principles, Computer Graphics, Algorithms and Data Structures, Compiling Theory, Computer Networks, Database Theory.
- Mathematical Courses: Advanced Mathematics, Linear Algebra, Discrete Mathematics, Possibility Theory, Numerical Analysis.

Professional Experience

Microsoft

SWE Intern

Beijing, China

Feb. 2023 – Aug. 2023

I'm currently a software engineering intern at Microsoft China in Azure big data group. I'm developing autonomous machine learning platform using PySpark.

Research Experience

National University of Singapore

Research Assistant

Singapore

Apr. 2022 – Present

I was a research assistant at the NExT++ Centre, School of Computing. Supervised by Prof. Tat-Seng Chua and Postdoctoral Research Fellow Yunshan Ma, my research project focuses on Information Retrieval with Knowledge Graph. I applied machine learning techniques on solving temporal knowledge graph completion problems. We are currently preparing a conference manuscript to share our work.

Tsinghua University

Research Assistant

Beijing, China

Aug. 2021 - Apr. 2022

I did a research internship at the Institute of HCI and Media Integration, Department of Computer Science and Technology, and was supervised by Prof. Yongjin Liu. My research project focused on computer vision problems. Specifically, I worked on style transferring and image generation for hand-drawn sketch.
